

English version

Effective date 19 September 2026

This Policy explains how Snoofy uses cookies and similar technologies in the web application. A cookie is a small file or browser record that supports sign-in, preferences, analytics, and advertising functions.

1 Categories

Category	Purpose	Status
Essential	Account sign-in, session security, one-time-code security, and core functions.	Always active
Preferences	Remembering language and other selected settings.	Essential or optional depending on the function
Analytics	Measuring use and performance through Google Analytics.	Consent required
Marketing	Measuring advertising and building audiences through Meta Pixel.	Consent required

2 Technologies

Provider	Purpose	Retention
Snoofy	Session/login and preference cookies. Exact names depend on the technical configuration.	For the session or as long as the preference is needed
Google Analytics	Aggregate analysis of visits, pages, and use.	According to the Analytics configuration and your choice
Meta Pixel	Advertising measurement and relevant audience creation.	According to Meta configuration and your choice

Exact cookie names and durations: snoofy-session — authentication and session security, up to 120 minutes; XSRF-TOKEN — CSRF protection, up to 120 minutes; snoofy_cookie_notice — remembers dismissal of the Cookie notice and its policy version, 1 year.

3 Your choices

On the first visit, the cookie banner should make Accept, Reject, and category management equally easy. Essential cookies operate without consent because sign-in and security cannot work without them. Analytics and marketing technologies must remain off until the relevant consent is given.

You should be able to change your choice at any time through a Cookie settings link. Withdrawal does not affect processing that was lawful before withdrawal.

4 Browser controls

You may also delete or block cookies in your browser. Blocking essential cookies may prevent sign-in or parts of the web application from working.

5 Third-party terms

Google and Meta process data under their own terms and privacy policies. See their privacy resources for details. Snoofy's Privacy Policy describes recipients and international transfers.

6 Changes and contact

If a technology or its purpose changes, we will update this Policy and the cookie banner. Contact snoofy.ge@gmail.com or +995 558 78 77 49.
